Our finishes

<p>POLISHED</p>		<p>A finish that highlights the chromatic hues and nuances of the material, bringing out the beauty of the pattern and giving it a refined look. Precision mechanical processing polishes the surface to a perfectly uniform finish, allowing it to reflect light.</p>	<p>Finitura che mette in risalto le tonalità cromatiche e le sfumature del materiale impreziosendone il disegno e conferendogli un aspetto raffinato. Con la lavorazione meccanica si lucida la superficie fino a renderla uniforme permettendo alla luce di riflettersi perfettamente.</p>	<p>Finition qui met en valeur les teintes chromatiques et les nuances de la matière en enrichissant son dessin et lui assurant un aspect raffiné. L'usinage mécanique polit la surface jusqu'à la rendre uniforme, ce qui permet à la lumière de se refléter parfaitement.</p>	<p>Mit dieser Fertigbearbeitung werden chromatische Farbtöne und Nuancen des Materials hervorgehoben. Auf der Fläche kommen die Muster noch raffinierter zum Ausdruck. Durch die mechanische Bearbeitung wird der Oberfläche ein gleichmäßiger, spiegelnder Glanz verliehen.</p>	<p>Acabado que realza los tonos y los matices del material poniendo en valor su diseño y aportando un aspecto refinado. Con el mecanizado se pule la superficie hasta dejarla uniforme, permitiendo que la luz se refleje perfectamente.</p>	<p>Отделка, подчеркивающая хроматические нюансы материала и делающая узор еще более ценным и изысканным. Посредством механической обработки поверхность шлифуется до получения однородного блестящего эффекта.</p>
<p>SILK</p>		<p>The Silk finish is characterised by an extremely matt, non-reflective surface, without any mirrored reflections. It is particularly soft to the touch, while still maintaining all the technical characteristics that make it perfect for kitchen countertops and furnishing elements. Used mainly for marble looks, it features the subtle irregularities typical of natural stone.</p>	<p>La finitura Silk è caratterizzata da una superficie estremamente opaca, senza riflessi, nella quale non ci si specchia. Al tatto risulta particolarmente morbida pur mantenendo le caratteristiche tecniche che la rendono perfetta per top cucina ed elementi d'arredo. Utilizzata principalmente per i look marmo presenta lievi irregolarità tipiche delle pietre naturali.</p>	<p>La finition Silk est caractérisée par une surface extrêmement opaque, sans reflets, où l'on ne se reflète pas. Elle est particulièrement souple au toucher, tout en gardant les caractéristiques techniques qui la rendent idéale pour les plans de travail de la cuisine et les éléments d'ameublement. Principalement utilisée pour l'aspect marbre, elle présente les légères irrégularités caractéristiques des pierres naturelles.</p>	<p>Das seidenmatte Finish zeigt eine extrem matte und glanzlose Oberfläche, in der man sich nicht spiegeln kann. Es fühlt sich besonders samtig an, weist jedoch gleichzeitig alle technischen Eigenschaften auf, durch die es sich einwandfrei als Küchenplatte oder für Einrichtungselemente eignet. Seine Marmor-Optik stößt auf großen Anklang, die auch den leichten Unregelmäßigkeiten zu verdanken ist, welche bei Naturstein typisch sind.</p>	<p>El acabado Silk se caracteriza por una superficie totalmente mate, en la que la luz no se refleja. Es especialmente suave al tacto, aún manteniendo las características técnicas por las que es ideal para encimeras de cocina y elementos de decoración. Se utiliza principalmente para los efectos mármol y presenta ligeras irregularidades típicas de las piedras naturales.</p>	<p>Отделка с шелковистым эффектом привлекает внимание невероятно матовой поверхностью, без отблесков и зеркальных отражений. На ощупь она кажется мягкой, сохраняя при этом технические характеристики, делающие ее идеальной для кухонных поверхностей и предметов интерьера. Благодаря небольшим неоднородностям, характерным для природного камня, данная отделка часто используется для создания мраморного эффекта.</p>
<p>SATIN</p>		<p>A matt finish with an astonishingly realistic look that enhances the depth and naturalness of the material. The colouring is softened in tone, almost as if veiled. It reveals its maximum aesthetic splendour in marble effects where it can also be defined as eggshell.</p>	<p>Finitura opaca dal sorprendente realismo che esalta la profondità e la naturalezza del materiale. La colorazione si presenta smorzata nei toni e quasi velata. Raggiunge la sua massima espressione estetica sugli effetti marmo dove può anche essere definita a pelle d'uovo.</p>	<p>Finition opaque au réalisme surprenant, qui exalte la profondeur et le naturel de la matière. La coloration a des teintes estompées, elle est presque voilée. Les effets marbre lui donnent sa plus grande expression esthétique, et dans ces cas elle existe également en version coquille d'œuf.</p>	<p>Überraschend realistisches Finish, bei dem die Tiefe und Natürlichkeit des Materials bestens zum Ausdruck kommen. Die gedämpften Farbtöne zeigen sich in einer fast verschleierten Optik. Die beste optische Ausdrucksfähigkeit erreicht das Material bei der Marmoroptik, wo man in der Fachsprache auch von „Eierhaut“ spricht.</p>	<p>Acabado mate con un realismo sorprendente que realza la profundidad y la naturalidad del material. El color presenta tonos matizados y casi velados. Alcanza su máxima expresión estética en los efectos mármol, pudiéndose también definir "apomazado".</p>	<p>Матовая и невероятно реалистичная отделка подчеркивает глубину и естественность материала. Мягкие оттенки привлекают внимание почти прозрачным эффектом. Данная отделка достигает своей эстетической кульминации в сочетании с мраморным эффектом.</p>
<p>LEATHERED</p>		<p>A finish that is smooth to the touch, characterised by a slightly wavy appearance reminiscent of the texture of leather. The final brushing makes the surface extremely soft and pleasant.</p>	<p>Finitura che si presenta liscia al tatto, caratterizzata da un aspetto leggermente ondulato che rimanda alla texture del cuoio. La spazzolatura finale rende la superficie estremamente morbida e piacevole.</p>	<p>Finition lisse au toucher, caractérisée par un aspect légèrement ondulé qui rappelle la texture du cuir. L'effet brossé final rend la surface extrêmement douce et agréable.</p>	<p>Eine Oberfläche, die sich glatt anfühlt und durch ein leicht gewelltes Aussehen gekennzeichnet ist, das an die Textur von Leder erinnert. Durch die abschließende Bürstbehandlung wird die Oberfläche besonders samtig und angenehm.</p>	<p>Acabado suave al tacto, caracterizado por un aspecto ligeramente ondulado que recuerda a la textura de la piel. El cepillado final hace que la superficie resulte extremadamente suave y agradable.</p>	<p>Гладкая на ощупь отделка, характеризующаяся слегка волнистым видом, напоминающим текстуру кожи. Финишная обработка щеткой (браширование) делает поверхность чрезвычайно мягкой и приятной.</p>
<p>FLAMED</p>		<p>A finish that brings out the chromatic beauty of the material, highlighting its characteristics. It creates slabs which resemble rough, natural split stone both visually and to the touch, and which can in turn be brushed.</p>	<p>Finitura che esalta la cromaticità del materiale mettendo in evidenza le sue caratteristiche. Conferisce alla lastra un aspetto a spacco naturale ruvido, sia alla vista che al tatto, che può essere a sua volta spazzolato.</p>	<p>Finition qui souligne le chromatisme de la matière en soulignant ses caractéristiques. Elle donne à la plaque un aspect de rupture naturelle rugueux, aussi bien à la vue qu'au toucher, et elle peut être brossée.</p>	<p>Bei diesem Finish werden die Farbe des Materials verbessert und seine Eigenschaften verstärkt zum Ausdruck gebracht. Der Platte wird ein natürlich raues Spaltbild verliehen, das sich auch so anfühlt und in eine gebürstete Version weiterverarbeitet werden kann.</p>	<p>Acabado que acentúa las posibilidades cromáticas del material realizando sus características. Aporta a la placa un aspecto tosco natural de fina rugosidad, tanto a la vista como al tacto, pudiéndose cepillar.</p>	<p>Отделка, подчеркивающая цветовую гамму материала и его характеристики. Она придает естественный шероховатый эффект, на вид и на ощупь, и может быть крацована.</p>
<p>HAMMERED</p>		<p>A finish that produces a slightly corrugated surface, creating an appearance that resembles the natural material. Slabs have a chiselled, unpolished look, with an irregular surface characterised by pitting, dimples and bumps.</p>	<p>Finitura che rende la superficie leggermente corrugata conferendo un aspetto simile al materiale naturale. La lastra ha un aspetto scolpito, non levigato, definendo una superficie a traccia puntiforme con fossette e rilievi.</p>	<p>Finition qui rend la surface légèrement ondulée, pour un aspect semblable à la matière naturelle. La plaque a un aspect sculpté, non poli, et elle définit une surface au motif punctiforme à fentes et reliefs.</p>	<p>Bei dieser Oberflächenbehandlung wird ein leicht welliges Finish erreicht, das dem Naturmaterial sehr Nahe kommt. Durch das skulpturale, ungeschliffene Aussehen weist die Platte eine punktförmige Spurenfläche mit Vertiefungen und Reliefs auf.</p>	<p>Acabado para obtener una superficie ligeramente labrada aportando un aspecto similar al material natural. La placa tiene un aspecto tallado, sin pulir, presentando una superficie abujardada con pequeños cráteres y relieves.</p>	<p>Отделка, придающая поверхности слегка рифленый эффект, напоминающий естественный материал. Плитка привлекает внимание текстурным, неполированным эффектом с точечным узором с углублениями и выпуклостями.</p>
