CLEANING AND MAINTENANCE MANUAL

1	ORDINARY CLEANING	3
2	EXTRAORDINARY CLEANING	3
	<u>2.1</u> Application	5
3	PRECAUTIONS	6

1 ORDINARY CLEANING

For the ordinary cleaning of Atlas Plan slabs, it is advisable to remove the dust with a dry and clean cloth. Afterwards, we recommend using the product FILABRIO. We suggest using the doses recommended by the manufacturer and a microfiber cloth.

In any case, to avoid extraordinary cleaning, it is advisable to immediately remove any stain before it dries.

2 EXTRAORDINARY CLEANING

In the case of dirt that is resistant to ordinary cleaning, it is recommended to use a detergent specific to the type of dirt.

Prompt action remains an important factor for the success of the cleaning operation.

It is suggested to perform a preliminary test on a small stained portion, verifying the effectiveness of the detergent before using it on the whole surface.

Never use concentrated hydrochloric acid and/or caustic soda or detergents that contain hydrofluoric acid and/or its derivatives.

Below is a table showing detergents suitable for various types of dirt:

TYPE OF DIRT	DETERGENT/SOLVENT	APPLICATION
GREASE	Degreasing detergent (like FILA PS87)	Damp cloth
COFFEE	Degreasing detergent (like FILA PS87)	Damp cloth
WINE	Degreasing detergent (like FILA PS87 or SR95)	Damp cloth
BEER	Degreasing detergent (like FILA PS87)	Damp cloth
FRUIT JUICE	Degreasing detergent (like FILA PS87)	Damp cloth
COCA COLA	Degreasing detergent (like FILA PS87)	Damp cloth
INK	Degreasing detergent (like FILA PS87 or SR95)	Damp cloth
VOMIT AND URINE	Degreasing detergent (like FILA PS87)	Damp cloth
ICE CREAM	Degreasing detergent (like FILA PS87)	Damp cloth
FELT TIP PEN	Degreasing detergent (like FILA PS87)	Damp cloth
BLOOD	Degreasing detergent (like FILA PS87)	Damp cloth
HAIR DYE	Degreasing detergent (like FILA PS87 or SR95)	Damp cloth
RUBBER	Degreasing detergent (like FILA PS87)	Damp anti-scratch Scotch Brite

RUST	Detergent for rust removal (like FILA NO RUST)	Damp anti-scratch Scotch Brite
SILICONE	Detergent for silicone removal (like Fila ZERO SIL)	Damp anti-scratch Scotch Brite
WAXES AND RESINS	Solvent (like FILA SOLV or Fila ZERO SIL)	Damp anti-scratch Scotch Brite
ALUMINUM MARKS	Descaling detergent (like FILA DETERDEK)	Damp anti-scratch Scotch Brite
PENCIL MARKS	Descaling detergent (like FILA DETERDEK)	Damp anti-scratch Scotch Brite
LIMESCALE	Descaling detergent (like FILA DETERDEK)	Damp anti-scratch Scotch Brite

2.1 Application

DAMP CLOTH

Apply the detergent to the stain and let it act for the time indicated by the detergent's manufacturer. Rinse carefully and dry with a cloth.

DAMP ANTI-SCRATCH SCOTCH-BRITE

Apply the detergent to the stain and let it act for the time indicated by the detergent's manufacturer.

Use a white, damp scratch-resistant Scotch-Brite sponge and scrub the area to be cleaned with a circular movement.

Rinse thoroughly with clean water and dry with a cloth.

3 PRECAUTIONS

Atlas Plan is not responsible in any way for the improper use of the material, which is why it recommends:

- Prevent collisions with the most exposed points like corners and edges, both with and without a miter.
- Avoid using metal or abrasive pads.
- Do not use knives with a ceramic blade because the hardness of the two materials is very similar.
- For dark colors and/or Polished Lux surfaces use wood or plastic cutting boards for cutting food.
- Do not place hot objects (such as frying pans, pots, coffeepots, etc) directly on the surface. Instead, use trivets to protect the surface.

Note: To repair shallow surface scratches of both the Silk and Polished Lux finishes, contact Atlas Plan directly.

It is understood that Atlas Plan cannot be held responsible for events, damage or defects due to negligent cleaning and maintenance.
